

Project 2025 vs. Federal Employees

The Devil is in the Details

Project 2025 is the blueprint for a hostile takeover of the federal government under an anti-union presidential administration. Everything from our jobs and union rights, to the very existence of our agencies and our union are on the line.

Here are **Project 2025** proposals that are aimed directly at federal employees:

- 1 Consider outlawing federal unions altogether
- 2 Eliminate the GS and WG pay systems
- 3 Slash federal employee pensions
- 4 Decertify some unions at DOD and DHS
- 5 Make it almost impossible to reverse disciplinary actions
- 6 Bring back discriminatory hiring practices
- 7 Slash budgets and cut thousands of federal jobs
- 8 Privatize, Privatize, Privatize
- 9 Convert thousands of jobs to "Schedule F"
